

Zerokeys for Sport: The complete solution for your sports club

Zerokeys simplifies the management of your sports club, solving problems such as complex access management, difficulty in tracking attendance, and the lack of an efficient system for communicating with members. We offer a complete solution to improve your customers' experience, optimize your resources, and increase the overall efficiency of the club. With Zerokeys, you can fully dedicate yourself to sports activities and growing your business.

The Problem

Complex Access Management

Imagine having to manually manage court reservations, control access for hundreds of members with different authorization levels, and coordinate lighting and air conditioning for each facility. A real nightmare!

High Costs and Inefficiency

Paper-based systems or outdated software involve high costs in terms of staff dedicated to managing the sports center, waste of valuable time, and overall lower efficiency of the center. The lack of an accurate attendance tracking system makes it difficult to manage court access and optimize resources.

The Zerokeys Solution

1 Easy Reservations

An intuitive online booking system, accessible from any device.

2 Smart Access Control

Only authorized users can access the courts after reservation and payment.

3 Automated Management

Lighting and air conditioning activate automatically when the customer arrives.

4 Secure Online Payments

Integration with payment gateways to receive online payments securely.

Total Control: Local and Remote

Control Panel

Management of every aspect of the club, both locally and remotely.

Complete Overview

Monitoring of sensors and automations for complete control.

Cloud Platform

Remote access and control anytime, anywhere.

Sports center access

Manage access to your sports center simply and efficiently, even remotely.

Benefits for your Club

Efficiency

Optimization of resource usage, with less waste and simplified management.

Energy Saving

Cost reduction thanks to intelligent lighting and climate control.

Predictive Maintenance

Automatic monitoring system to prevent breakdowns and interruptions.

Improved Customer Experience

Easy reservations, ideal playing environment, without hitches or queues.
